# Admin Page:

## Create, Delete and Update Products :

The image displays two screenshots of a web application interface for managing a grocery store.

**Top Screenshot: Products Page**

The browser address bar shows `localhost:51115/admin/products`. A notification banner at the top states: "localhost:51115 says Product Deleted Successfully!". The left sidebar menu includes: Dashboard, Users, **Products**, Add Products, Add Category, Orders, and Feedback. The main content area, titled "Products", displays a grid of product cards:

- Apple**: Fresh red apples, price: 2.5/-, with Update and Delete buttons.
- Banana**: Ripe yellow bananas, price: 1.2/-, with Update and Delete buttons.
- Carrot**: Organic carrots, price: 1.5/-, with Update and Delete buttons.
- Broccoli**: Fresh green broccoli, price: 2.8/-, with Update and Delete buttons.

Below these are four more product images: a bowl of green salad, a glass bottle of milk, a wedge of cheese, and a bowl of yogurt with berries.

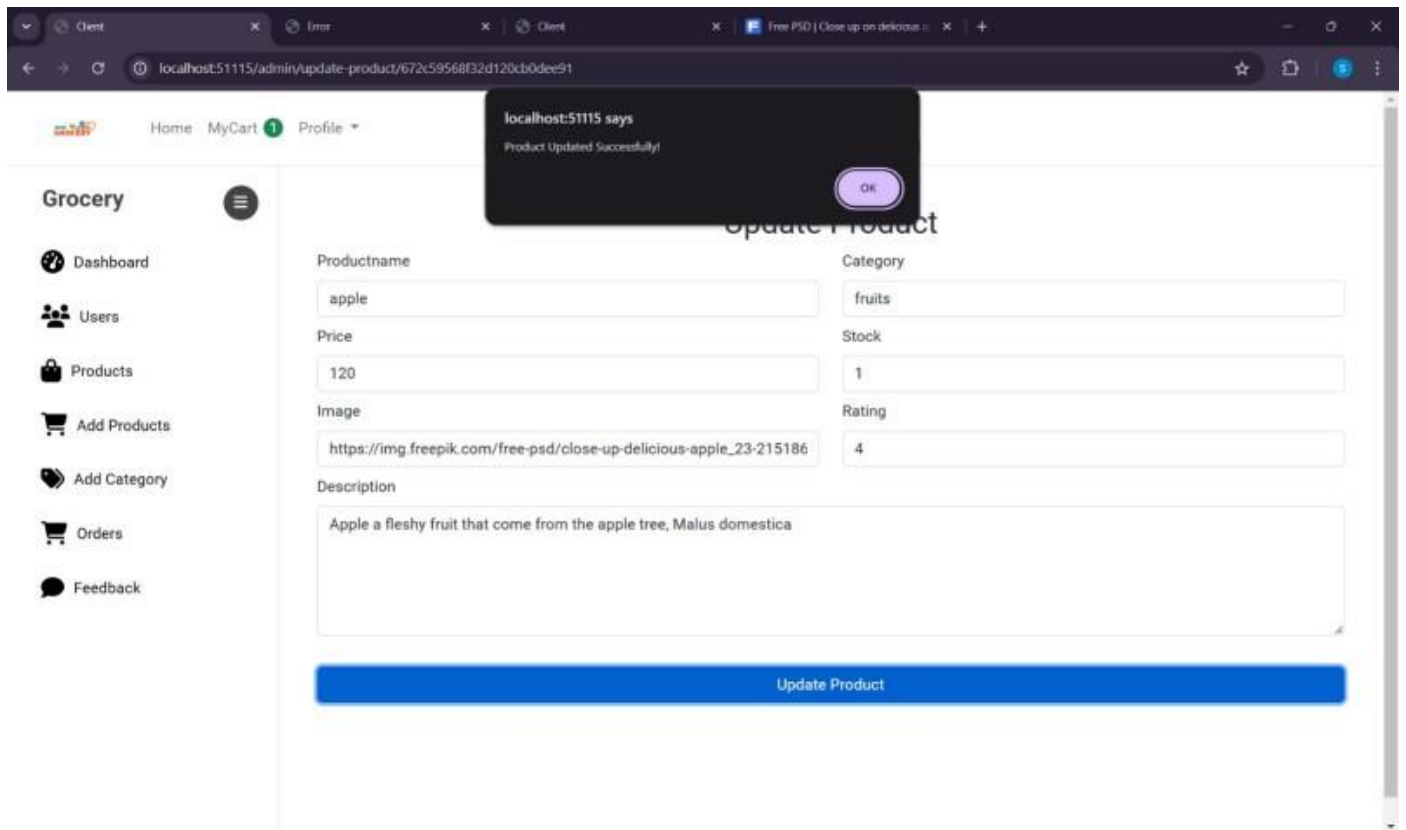

**Bottom Screenshot: Update Product Form**

The browser address bar shows `localhost:51115/admin/update-product/672c59568f32d120cb0dee91`. The left sidebar menu is identical to the top screenshot. The main content area is titled "Update Product" and contains the following form fields:

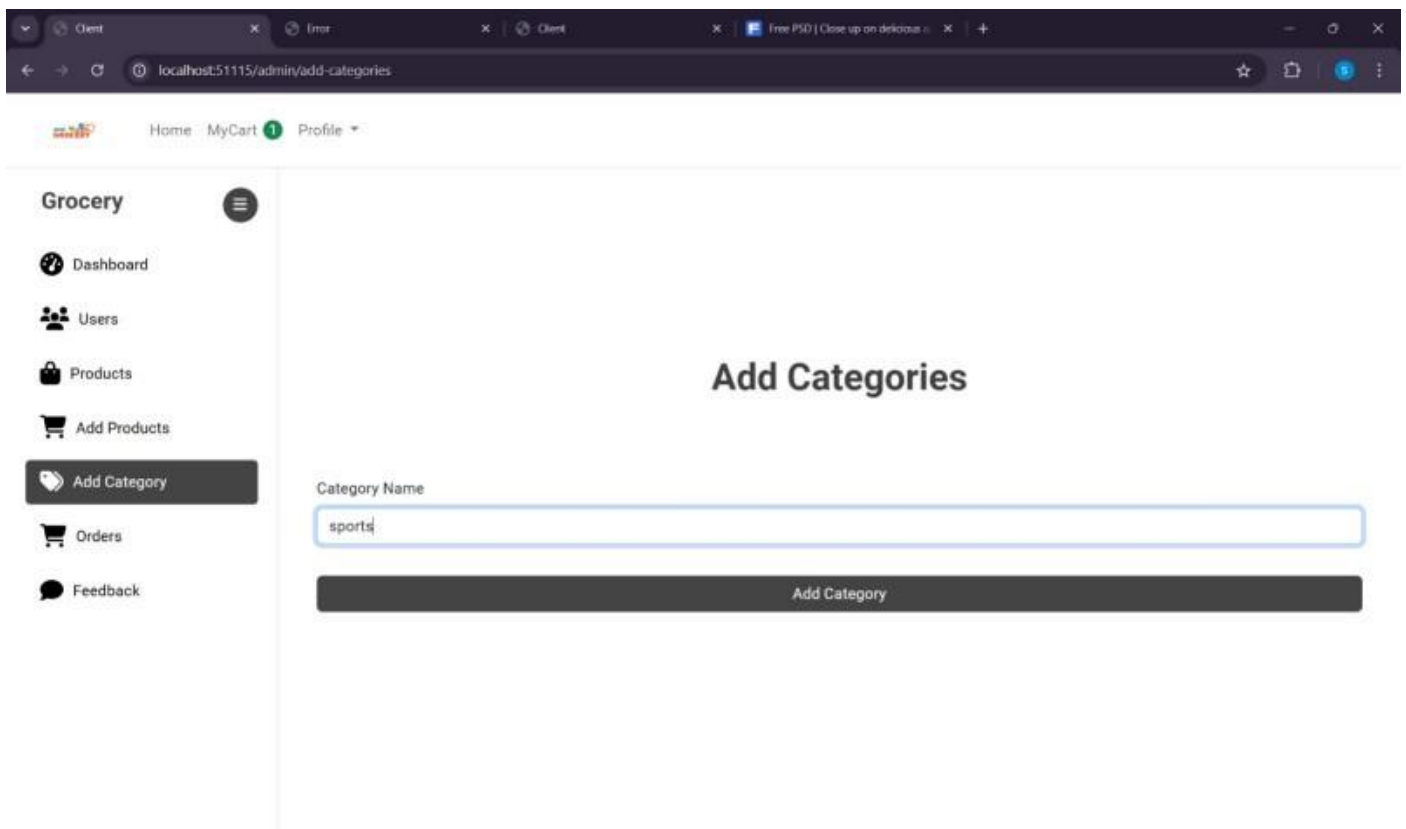

- Productname**: Input field containing "apple".
- Category**: Input field containing "fruits".
- Price**: Input field containing "120".
- Stock**: Input field containing "1".
- Image**: Input field containing the URL `https://img.freepik.com/free-psd/close-up-delicious-apple_23-215186`.
- Rating**: Input field containing "4".
- Description**: Text area containing "Apple a fleshy fruit that come from the apple tree, Malus domestica".

A large blue button labeled "Update Product" is positioned at the bottom of the form.
